Values are estimated and may vary. The performance score is <u>based only on these metrics</u>.

Opportunities — These suggestions can help your page load faster. They don't <u>directly affect</u> the Performance score.

Opportunity	Estimated Savings
Eliminate render-blocking resources	0.3 s 🗸
Remove unused CSS	0.15 s 🗸

Diagnostics — More information about the performance of your application. These numbers don't <u>directly affect</u> the Performance score.

▲ Ensure text remains visible during webfont load	~
▲ Serve static assets with an efficient cache policy — 3 resources found	~
Avoid chaining critical requests — 6 chains found	~
Keep request counts low and transfer sizes small — 9 requests • 799 KB	~

Passed audits (18)

These checks highlight opportunities to improve the accessibility of your web app. Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Contrast — These are opportunities to improve the legibility of your content.

▲ Background and foreground colors do not have a sufficient contrast ratio.

Additional items to manually check (11) — These items address areas which an automated testing tool cannot cover. Learn more in our guide on conducting an accessibility review.

Passed audits (10)

Not applicable (24)

Best Practices

▲ Does not use HTTP/2 for all of its resources — 4 requests not served via HTTP/2	~
▲ Does not use passive listeners to improve scrolling performance	~
▲ Includes front-end JavaScript libraries with known security vulnerabilities — 1 vulnerability detected	~
Passed audits (12)	~

SEU

These checks ensure that your page is optimized for search engine results ranking. There are additional factors Lighthouse does not check that may affect your search ranking. <u>Learn more</u>.

Content Best Practices — Format your HTML in a way that enables crawlers to better understand your app's content.

Progressive Web App

These checks validate the aspects of a Progressive Web App. Learn more.

Fast and reliable

	Page load is fast enough on mobile networks	~
A	Current page does not respond with a 200 when offline	~
A	start_url does not respond with a 200 when offline No usable web app manifest found on page.	~
	Installable	
	Uses HTTPS	~
	Does not register a service worker that controls page and start_url	~
	Web app manifest does not meet the installability requirements Failures: No manifest was fetched.	~
	PWA Optimized	
A	Does not redirect HTTP traffic to HTTPS	~
	Is not configured for a custom splash screen Failures: No manifest was fetched.	~
A	Does not set a theme color for the address bar. Failures: No manifest was fetched, No ` <meta name="theme-color"/> ` tag found.	~
	Content is sized correctly for the viewport	~
	Has a <meta name="viewport"/> tag with width or initial-scale	~
	Contains some content when JavaScript is not available	~
	Does not provide a valid apple-touch-icon	~
Ad	ditional items to manually check (3) — These checks are required by the baseline PWA Checklist but are not	~

Runtime Settings

automatically checked by Lighthouse. They do not affect your score but it's important that you verify them manually.
